Plants and the 4 classical elements

Everything is connected, but maybe certain relations are stronger than others. See our participant's intuition-based opinion below, how we connect plants to elements.

Season: Spring

Influences the development of flowers.

Season: Summer

Influences the development of seeds.

aspen

buckwheat

figwort

wheat

cabbage

Wind

Air

w e t

Water

Rain

Season: Winter

Influences the development of leaves.

comfrey

lettuce

water lily

pumpkin

watercress

willow
